

Divine Resolution by Rajasree

Oh God, lend us your ears
we believe in you, we believe
atleast you lend your ears
you made us and only you made us Eve.

We mere to be a partner in everything for men
and not as subordinates or payless laborers
you made us and those many say men
productive soul, caretaker and bonded laborers.

Oh God, lend us your blaze
for us to come out from the brutal crutches
caught in the toughened maze
resolve us to be free from the armed bridges.

We fear for the society corruption
unsafe environment for the Eves made us worry
even infancy is threatened with seduction
losing all the childhood merry.

Oh God, lend us your arms
without showing any discrimination
disparity to be eradicated forearms
modifying the third world to the first emancipation.

We hear from men Nature compared to ours
though with uniqueness, destroyed
for women whichever form is ours
demolished if not congenial, amicable so eradicated.

Oh God, lend us your eyes
to shower the mercy on merciless folk
be lenient and make us to the heavenly rise
for us also with flesh and blood folk.

We rear all the chores even allotted to men
though heard filthy words of domination
trusting you are not in favor of men
letting our grievances on you to unchain our alienation.

Oh God, lend us your blessings
for we can temporarily relieve from gloom
domination made us to sustain 'isms'
to break we need confidence bloom.

We near the freedom air when you are with us
don't give up for we are not wrecker
bringing the revolution in the minds of men for us
we are safe and hale in the society of trigger.
